Portfolio: myPortfolio.com

## Summary

Frontend Engineer with a strong foundation in HTML, CSS, JavaScript, and frameworks like React and Svelte, demonstrating a keen ability to craft dynamic user interfaces. Familiar with NodeJS, Python, MongoDB and Git, showcasing a commitment to collaborative project workflows.

## Projects

**Dom Master** –  A lightweight, reactive Javascript library.

Created a custom JavaScript library for building reactive, state-driven UIs without a virtual DOM. Features include declarative syntax, scoped styles, lifecycle hooks, control flow blocks (if, each), and a subscription-based state system.
Check it out: https://github.com/guifendjy/dom_master

**Voice Recorder App** –  Built with Dom Master (v1)

Developed a web-based audio recorder using Dom Master. Allows users to record, preview, and save audio
clips with real-time UI updates. Utilized the Web Audio API for native browser recording.
